

Real World Weather

Weather is the single biggest variable in flying. It can turn a long-awaited vacation into a long wait at the FBO, a quick two-hour flight into a tedious four-hour slog, or a stress-free jaunt into a skill-testing ordeal. The variations are infinite, but for pilots it all boils down to two questions: What's really going on out there, and what does it mean for me?

The day-to-day challenge of answering those questions is the focus of our new seminar. We'll take a no-nonsense look at how you can get better, more complete weather information—and make better, more informed decisions as a result.

Directions: There is no pre-registration for this seminar.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
